

ALMA Stairwell

Alma is the perfect solution for lighting common areas such as stairwells and hallways, which are only occupied intermittently. Alma's built-in microwave occupancy sensor provides outstanding energy savings with bi-level control. The moment a person enters the detection zone, Alma increases to a pre-set high power, providing visual comfort and safety to residents with bright but diffuse LED light. After the person exits, Alma pauses for a settable time delay, then self-dims to a low level.
